Latest Updates

- ▶ **Pilot panel supports university-level assessment in REF** Published: 28 July 2022
Assessment of the research environment in REF should focus on the university, instead of discipline level, recommends the panel that has been piloting a new assessment process.
- ▶ **All voices matter – what REF 2021 can tell us about the involvement of people from Black, Asian and Minority Ethnic communities in research assessment** Published: 8 July 2022
EDAP members Raheela Khan, Fiona Ross and Tessa Parkes consider what the analysis of data from REF 2021 tells us about how people from Black, Asian and Minority Ethnic groups have been able to contribute to, and assess, research quality.
- ▶ **Impact case study database now available** Published: 24 June 2022
Following recent technical issues, we are pleased to announce the impact case study database is now available on the REF website. The database allows detailed searching and filtering of the impact case studies submitted as part of REF 2021. Detailed guidance on using the database and further information about the data it contains are available on our website.
- ▶ **New findings on interdisciplinary research in REF** Published: 30 June 2022
The expert interdisciplinary panel, newly appointed in REF 2021, has published its report on the measures introduced to support equity in REF assessment for interdisciplinary research

- 3- Then Choose your **major or the closest unit to your major** from the list then click on **Apply Selected Filters**, after that a list of universities is going to show up

Cancel Apply selected filters

Select one or more of the following units of assessment and then click **Apply selected filters** when you have finished.

Select all **Select none**

- ☐ 1 - Clinical Medicine
- ☐ 2 - Public Health, Health Services and Primary Care
- ☐ 3 - Allied Health Professions, Dentistry, Nursing and Pharmacy
- ☐ 4 - Psychology, Psychiatry and Neuroscience
- ☐ 5 - Biological Sciences
- ☐ 6 - Agriculture, Food and Veterinary Sciences
- ☐ 7 - Earth Systems and Environmental Sciences
- ☐ 8 - Chemistry
- ☐ 9 - Physics
- ☐ 10 - Mathematical Sciences
- ☐ 11 - Computer Science and Informatics
- ☐ 12 - Engineering
- ☐ 13 - Architecture, Built Environment and Planning
- ☐ 14 - Geography and Environmental Studies

- 4- Look for the desired university and then sum **Columns 4* and 3*** from the graph.
- As the example shown below for (**University of Aberdeen**) Ranking

In the shown example for University of Aberdeen the final result from adding **columns 4 and 3** is $28 + 64 = \underline{92}$

- If the result **above 80** it will be (**Rank 1**)
- If the result **from 75 to 79** it will be (**Rank 2**)

So University of Aberdeen will be ranked as **Rank 1**.
